Princeton Billing Service, Ltd. is chosen by clients because we have unique expertise.

We have many years of experience with health systems, physician practices and medical billing management companies.

We have consulting backgrounds and are Certified Professional Coders (CPC). We help you participate with insurances, obtain staffing privileges, start up new programs and medical practices, set up charge masters and routing slips, and manage the revenue side of your business.

Since 1997, our clients' revenues have been managed by our revenue specialists and billing analysts who are skilled in operations and practice management, procedural coding, payer reimbursement, facility & physician billing, negotiating contracts, and quickly collecting accounts receivables.

We Are . . .

... so much more than a medical billing company.

... highly proficient revenue management specialists who are also facility and physician billing analysts.

... Offering decades of managerial consulting and technical experience.

... dedicated to promoting and improving the financial return of healthcare providers.

... committed to excellence.

... HIPAA compliant.

... educators

... focused on your peace of mind.
